

Service Renewal: Disc Stoppers

Disc Stoppers are an easy and economical way to stop gas flow and plug abandoned lines up to 4" in diameter. These tools are constructed of a steel shaft and four heavy-duty rubber washers to provide a seal. Push or pull to insert and remove into a pipe using the special T-Handle wrench. To leave it in the pipe remotely, simply loosen the wrench to detach it from the stopper.

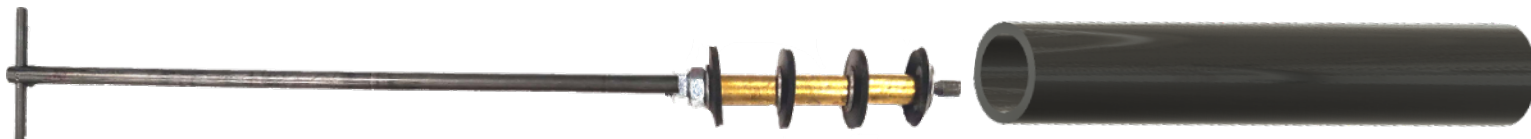

Photo	Part #	Description	Max Pressure (PSI)
	54-100135-10	3/4" DISC STOPPER	10
	54-100136-10	1" Disc Stopper	10
	54-100137-10	1 1/4" Disc Stopper	2
	54-100138-10	1 1/2" Disc Stopper	2
	54-100139-10	2" Disc Stopper	2
	54-100140-10	3" DISC STOPPER	0.25
	54-100141-10	4" DISC STOPPER	0.25
